- planning to attend college.
- GPA 3.5

ABOUT ME

My name is Maximiliano Esparza, I am a hard working individual who can keep focus and get the job done. I can multi-task, and I am good at teamwork.

WORK EXPERIENCE

DRYWALL INSTALLER

- during the weekend on Saturday I help install drywall into new buildings, sometimes my higher up tells me and a partner to go do a room and usually they put me in charge. For this you need leadership, certainty, and have knowledge about measurements and knowing how to use the proper tools.

VOLUNTEER SERVICES

- In my junior year I volunteered as at the snack bar at one of my school's football games, I was also put in charge of the people covering that shift. In this field I attended to people and assessed their needs. I provided them with the snacks and drinks they wanted, while staying calm and focused. As the person in charge I realized that we were working a little slow because of the snack shortage, so I developed a way to get snacks while still keeping focus on the people at the stand and managed to keep them satisfied.
- Another time I volunteered was also in my junior year. This time I advertised a store so it could gain popularity. In this job, my requirements were to keep people satisfied and advocate for the store. Since there was a line, me and my team collaborated and developed an idea to keep people engaged in the store, and activities going on.
